

# Strings

21<sup>st</sup>, 22<sup>nd</sup>

↓  
15-20<sup>th</sup> Mar

3 hr test

5-6 problems

33%

`s = "Hello"`  
01234

`s.charAt(1) → e`

`s.charAt(4) → o`

Immutable

↳ Cannot be modified or changed

## Instructor Tarun Luthra

- Software Engineer & Instructor @ Scaler ✓

# Immutable

↳ Cannot be modified or changed

s = "abc"

t = "abc"

→ t = s + "def"

↓

"abc" + "def"

↓

"abcdef"

s = "hello"

↑

p = "hello"

↑

p → "hello"

## Car Remotes

Access the car

Remote cannot change the car

$\left\{ \begin{array}{l} s1 = "abc" \\ s2 = "abc" \\ s1 = "abcd" \end{array} \right.$

$\begin{array}{l} s1 \text{ was } "abc" \\ s2 \rightarrow "abcd" \end{array}$

`s = "I love programming"`

`s2 = s.replace("programming", "Java")`

`s → "I love programming"`

`s2 → "I love Java"`

`s3 = s3.replace("hello", "HELLO")`

`s3` ~~for~~ `"hello world"`  
→ `"HELLO world"`

String a = "abc";

first method  
of defining String

String b = "abc";

Break till 10:45 PM

s = "Hello"  
↓  
strings

✓ instance }  
✓ object }  
✓ literal

.hashCode → Hash the data

Hashing → Advanced Batch

---

→ String s = new String ("abc");

Strings → Immutable

↓

Cannot be changed / modified

t = "hello"

s = "hello" ;

s += "world" ;

---

Many updates

Can be modified /  
changed  
↑

← Mutable  
Strings

String Builder
